

**Instructions for Update Download 2.5**  
**September 2009**  
Versions 1.5, 1.7, 2.0, 2.1, 2.2, 2.21, 2.22

To find which version you are currently using, look at the following:

1. On the Main Menu of MQBM, click on Technical Support, the version number is on this screen. Look carefully at the number, as they are similar.
2. Back Up your files!
  - A. Make a copy of C:/Program Files/Eureka Doc Sys/MQ Business Manager/MQBMdatafiles5\_be.
  - B. If your MQBMdatafiles5\_be are not in this location the update will not work. Make sure the file exists in this folder.
3. Uninstall your current program using Control Panel. In Vista this function is in Programs and in XP it is in Add or Remove Programs. Once the list is populated, (filled with the programs in your computer) then scroll down to MQBM and uninstall the program.

**Instructions for Update 1.5, 1.7, 2.0, 2.1, to Version 2.5.**

1. Download the update and Save the file to your desktop. Once saved, double click to begin the installation.
2. Open MQBM, click on Update to 2.5 button on the Main Menu.
3. You will see a series of windows that ask for confirmation of Update queries, adding and deleting tables, etc. Click on OK or yes for each. At the end, there will be two spreadsheets that appear. Close both.

**Instructions for Update 2.22 to Version 2.5**

**Back up your files!**

**Make a copy of C:/Program Files/Eureka Doc Sys/MQ Business Manager/MQBMdatafiles5\_be  
If your file is not in this location the update will not work, make sure the file exists in this folder.**

1. Download the update and Save the file to your desktop. Once saved, double click to begin the installation process.
2. There should not be a button to click for the update. Check Technical Support to verify your new version.

The update downloads can only be used on computers where MQBM has been previously installed. If you are installing on a new computer, you will need your original installation disk, this update and a new cd key code to unlock the software. The new cd key code can be purchased from the website on the Order Page and is called Extra cd key code.
